

SPARCstation 1 and SPARCstation 1+ Boot Prom

If you are installing SunISDN on a SPARCstation 1 (4/60) or SPARCstation 1+ (4/65), you may need to replace your boot PROM. To determine if a replacement is needed, before installation of the SunISDN board

- 1. Halt your system.**
- 2. Type the following at the boot prompt:**

```
> banner
```

The boot PROM revision level then appears.

- 3. The latest revision level is 2.9 .**
For the 4/60, order the Sun 4/60 2.9 Boot PROM Kit, part number 560-1805-xx (where xx is the latest version).
For the 4/65, order the Sun 4/65 2.9 Boot PROM Kit, part number 560-1806-xx (where xx is the latest version).
